

MINUTES

Flying Tigers Radio Control Model Club

Aug. 07, 2018 – 7:00 PM | Meeting called to order by Tom Kroggel

In Attendance

Number of Members Present - 25

Visitors - 6

Secretary Minutes – Gene Myers

No July meeting due to lack of enough members to constitute a forum.

Officers' Reports

New members voted in: Guy Caputo, John Strunc, and Tom Tingley. Welcome to the club.

Commander – Tom Kroggel

We had our float fly on June 23 and even though it rained all around us it did not the lake so don't let weather keep you from attending an event. The Monday group met with Women's Center of Toledo. They did some demonstration flying and had a question and answer session. We now have our roller fixed so next year we will roll the field instead of the park. The night fly on July 23 was fun and we had a great time. There is left-over fish from the night fly and will be at our next picnic on Sept 29. We will be selling perch sandwiches for \$5.00.

We had a visit from the neighbor about flying over his property. He said we are flying over his house. He understands we enjoy flying and having fun just like he does. Please remember our boundary to the north at the tree line. Do NOT fly over the tree line. His house is to the North East of our flight line. This has been in our rules since we started flying at this field.

The park has placed very good picnic tables in our shelter. Do not use these tables to build or repair planes on the picnic tables. Use the flight stands. Assembling small electric planes can be an exception.

Vice Commander – John Borton

Nothing to report.

Training – Scott Arnett

Training is going on Wed as scheduled. If anyone needs training let Scott know.

Treasurer – Herschel Feinblatt

Treasurer's reports were read and accepted as read. (June and July)

Trustees

Will have a raffle after the meeting. Matt wanted to thank everyone at the night fly. He said the fish fry was great and thanks to those that cooked it.

Show and Tell

Tim brought a Dura Fly from Hobby King called the Tundra. It is an electric powered bush plane. He likes the big wheels and spring suspension. Another great feature is, it has reverse. This comes in handy when on the water to back up and get out of trouble. It is powered by a 2200 - 3200 3 cell Lipo battery.

Ray Foley talked at length about the Flight Fest event he and a couple of others attended. He gave an enlightening talk and explained the great time everyone had.

Old Business

Some upcoming events are; Aug 18 float fly at Wiregrass. Set-up starting at 8:00A with flying starting around 9:00. On Saturday, Sept 8 we will do an airshow for park personnel at our field. Will be three different groups from the parks and we will start around 10 or 11.

They are going to start working Geiser Road sometime this week, you will still be able to access the field but it may be difficult for the next 3 weeks or so. As stated in the Commanders Report, there is no picnic on Sept 1st, but will be on Sept 29th.

New Business

Any time you get an award outside the club, please bring them in so we can recognize your achievements. Jeff got first place in intermediate at the week signals. Congratulations Jeff.

Tom and Terry are working on removing the cleats from the tractor tires. They will need some help in this area. It needs to be done by fall. If interested let them know.

Greg Hover gave a little talk about the FVP racing quads and presented rules specific to FPV. His rules were accepted by the Club and will be published in the near future.

The election for commander and treasurer are soon approaching so if you have a person in mind or want to run let the trustees know.

Adjournment

The meeting was adjourned at 8:12 PM

C. Eugene Myers
Secretary
Flying Tigers R/C Model Club
