### Officers' Reports

#### Commander – Tom Kroggel

---

The We had to cancel the last picnic and there will be not any more until next year. The field has been winterized but will still be open for use. The wind sock has been taken down and the ropes for the fence openings have been removed. The tall grass around the field has been mowed and no further mowing will be done until next season. It is our understanding the park will do snowplowing as the archery range will be open during the winter months. If you fly it will still be necessary to notify the airport tower.

The newly passed bill signed by Trump will not have much effect on us due to the height restrictions at our field, however as part of the bill we may be required to take a safety test in the future. They are still looking at the possibility of not restricting the height on AMA sanctioned fields, but again this will not affect us.

As a point of interest, most of the members FAA registration will expire in Jan, 2019. Some members stated when they went to the FAA website to renew, they were extended for 2 more
